

Axel A. Linares

Backend Developer | C# | .NET | REST APIs | AWS

"Clean code not only works — it speaks well of the person who wrote it."

Work Experience

QA Automation Intern | Sección Amarilla

March 2026 – Present

- Comprehensive E2E and black-box test automation using C# .NET, Playwright, and Robot Framework

Especialización Técnica y Académica | UNITEC & Cisco

February 2025 – February 2026

- Achieved industry certifications in Cybersecurity (Cisco Defense Analyst, Network Defense) and advanced proficiency in C++ and Python, strengthening critical competencies for infrastructure protection.

Associate Software Engineer I | Solera

August 2022 – February 2025

- Backend and full-stack development (C#, .NET, Java, CFML), optimizing deployment pipelines and database performance to significantly reduce system response times under SCRUM methodology

Education

B.S. Software Engineering
UNITEC | Expected Graduation: 2026.

Hard Skills

- Languages: C#, SQL, Java, CFML (ColdFusion), Python, JavaScript, C++.
- Frameworks: .NET Core/Framework, ASP.NET, Angular.
- Testing: Playwright (E2E), Robot Framework, Unit Testing.
- Cybersecurity: Threat Management, Network Defense, SOC Analyst skills.

Soft Skills

- Analytical Thinking
- Attention to Detail
- Self-Driven Learning
- Complex Problem Solving.

Summary / Professional Profile

Software Engineer with 2.5+ years of experience in Backend development (.NET) and QA Automation. Expert in building secure applications and automating E2E workflows using Playwright and Robot Framework. Currently specializing in Cybersecurity and Cloud architectures to deliver high-quality, highly available enterprise solutions.

Languages

Spanish: Native.

English: Professional Working Proficiency.

Certificaciones

- Cisco: Cybersecurity Defense Analyst, Gestión de Amenazas Cibernéticas & Defensa de la Red.
- C++ Institute: CPE, CPA & CPP -C++.
- Python Institute: PCAP (Associate) & PCEP.
- AWS: Cloud Practitioner (En progreso - 2026).

Projects / Portfolio

- Full-stack platform (Angular + ASP.NET Core) deployed on AWS.
- Features live code demos, Cloud architecture, and solutions to 50+ algorithmic challenges in C# (Codeforces).
- 🌐Interactive Web Portfolio
